

ATHUL ASHOK

Software Developer | Python Developer | Full Stack Developer

Alappuzha, Kerala, India

+91 8089167589 — athul3400@gmail.com — github.com/AthulAshok1 — linkedin.com/in/athul-ashok-16aa962ab

Professional Summary

MCA graduate with hands-on experience in Python, Django, MERN Stack, REST APIs, and database management gained through internships and academic projects. Proficient in developing secure, scalable web applications and building responsive software solutions. Strong analytical and problem-solving skills with a passion for learning new technologies and delivering high-quality software. Eager to contribute to a dynamic organization as a Software Developer while continuously enhancing technical and professional skills.

Education

Master of Computer Applications (MCA) **2024 – 2026**

Mar Athanasios College for Advanced Studies, Tiruvalla

CGPA: 7.61

Bachelor of Computer Applications (BCA) **2020 – 2023**

College of Applied Science, Perissery

CGPA: 6.54

Technical Skills

Programming Languages: Python, JavaScript, C, SQL

Frameworks: Django, Flask, React.js, Node.js, Express.js

Databases: MySQL, MongoDB

Web Technologies: HTML5, CSS3, REST APIs, JSON

Tools: Git, GitHub, Postman, Visual Studio Code

Concepts: OOP, REST APIs, CRUD, MVC, Agile, SDLC

Projects

Phishing Website Detection System

Technologies: Python, Django, Machine Learning, MySQL, HTML, CSS, JavaScript

- Developed a machine learning-based web application using Python and Django to identify phishing websites through real-time URL analysis.
- Trained classification models using phishing and legitimate website datasets.
- Built a user-friendly interface for URL analysis and prediction.
- Integrated MySQL for secure data management and developed an admin dashboard to improve model performance.

E-Gramaportal – Web-Based Governance System

Technologies: Python, Django, MySQL, HTML, CSS, JavaScript

- Built a web-based e-governance platform to digitize Gram Panchayat services with secure role-based access.
- Implemented secure role-based authentication for Admin, Staff, and Users.

- Enabled online service requests, complaint registration, and application tracking.
- Integrated an AI chatbot to provide instant user support.

Turf Booking System

Technologies: Python (Django), MySQL, HTML, CSS, JavaScript

- Developed a full-stack web application for online turf booking with real-time scheduling and payment management.
- Implemented real-time booking, availability checking, and payment management.
- Built role-based dashboards for administrators, managers, and users.
- Designed and maintained a relational database for bookings and payments.

Internship Experience

Python Web Development Intern

Luminar Technolab, Kochi

- Developed full-stack web applications using Django, HTML, CSS, JavaScript, and MySQL.
- Designed REST APIs and implemented backend business logic.
- Implemented user authentication, database integration, application deployment, and RESTful APIs using Django.

MERN Stack Developer Intern

Capital Infotech, Thiruvalla

- Built responsive web applications using MongoDB, Express.js, React.js, and Node.js.
- Integrated frontend interfaces with backend APIs.
- Implemented user authentication and CRUD functionality.

Industry Practice Trainee

Faith Infotech Academy, Technopark

- Participated in real-world software development projects using Agile practices.
- Gained practical experience with the Software Development Life Cycle (SDLC) and collaborative development.

Certifications

- Python for Data Science – NPTEL
- Python Web Development – Luminar Technolab
- Python Web Development – NACTET
- MERN Stack Development – Capital Infotech
- IT Industry Practice Program – Faith Infotech Academy

Strengths

- Strong analytical and problem-solving skills.
- Quick learner with excellent adaptability.
- Effective communication and teamwork.
- Ability to write clean, maintainable, and efficient code.
- Passionate about learning new technologies and delivering quality software solutions.
